Gurney Seeds Used for Prizewinners!

Don't know whether Gurney seeds should have the credit or Mr. & Mrs. Ernest Bach of Henderson, Minn., pictured above, but for 5 years in a row, the Bachs have won the Gardening Sweepstakes at the Minnesota State Fair. Mrs. Bach writes she thinks Gurney's seeds are the best ever.

Small Growers—Big Cabbage!

These are the children of Mr. & Mrs. Zdenek of Rt. 1, Tabor, S. Dak. Joan is 4 and Larry 2 and we think the cabbage weighs about as much as they do. Mrs. Zdenek said that out of 12 heads of Gurney cabbage she made 45 quarts. That's pretty good.

Yes, Gurney's Have A Free Gift For You

It's always fun to get a surprise. That's why it's always fun to open your Gurney package for there is always a surprise FREE GIFT enclosed for you.

This is just our way of saying "Thank-You" for your business and to express our hope that your planting will be a big success. It always has and always will take a lot of old-fashioned courtesy to maintain a friendly business. We believe in good measure and a little extra.

We think you'll like the Gurney way of doing business as do thousands of others.

Your Check Is Good At Gurney's

Don't fret about how to send money in your order. Checks are generally the safest way and we accept them all. Gurney customers are honest people.

Of course, money orders are equally safe to mail, but they cost a little. We don't recommend generally the sending of cash. Lots of people do, but it's generally better to use checks or money orders.

In any case, sitting down and shopping in comfort and leisure in your own home is the easiest way. When your order comes, we'll take care of it promptly and properly. That's what we're here for.

Why Fall Planting Pays And How To Do It

Fall planting is easy. And it really "pays off." Plants set in the fall get a real headstart. Roots get settled and develop, they take advantage of melting snow and early spring rains and get way ahead of spring planted plants.

HOW TO PLANT IN FALL—Mostly, plant just as you would in the spring. With roses it's well to mound about 8 or 10 in. of moist soil up over each rose to tip of our pre-pruned stock. Leave dirt on until growth starts in spring and then remove mound gently and prune back to about 6".

With PERENNIALS, SHRUBS, ETC., it's well to mulch with straw or leaves AFTER the ground freezes. This helps prevent "heaving" from frost.

In EXTREME NORTH, some folks like to "heel-in" fruit trees by covering whole tree (laid on side in trench) with 8" moist dirt. This keeps stock in perfect condition for earliest spring planting.

WHEN WE SHIP—in fall, bulbs, perennials and like are generally shipped after about Sept. 1, as soon as order received. Trees, shrubs and roses generally follow later in Oct. or Nov. after trees are properly "ripened up" for planting. It does not hurt to plant with a little frost in ground. Of course, a Free and Complete Planting Direction Booklet is included in EVERY GURNEY SHIPMENT.

Know The Correct Depth To Plant

The chart at the left will help you get better results with your bulbs, tubers and perennials. Most people do not realize how important it is to plant at the correct depth. If your soil is real sandy, plant slightly deeper, if heavy soil, not so deep.

Is This Holland Or Yankton?

Don't know which way you guessed but the answer is Yankton. The costumes are authentic and came to us direct from our bulb grower in Holland. The girls both work for Gurney's and had a lot of fun down in the store greeting the fall bulb customers. In addition they visited the lower grades in the Yankton School Systems (in costume, of course) and gave the children some tulip bulbs to teach them a little about gardening.

All Gurney Nursery Stock Is FULLY GUARANTEED

A great deal of nursery stock, sitting on many store counters is dried out and often times dead. Besides losing a whole year when you plant that kind of stock, it often isn't even guaranteed—you just are "out the money."

That's not true with Gurney stock. Beside being live, fresh, state-inspected and approved, it is satisfaction guaranteed or your money back and it has been that way for years. That's why Gurney customers keep coming back. They KNOW they will get good stock, but if anything, by chance, should be wrong, it's always made right.

Our guarantee is a fair guarantee and it has pleased our customers for years. Here it is:

Gurney's Nursery Guarantee

We guarantee all our nursery stock to be state inspected, free from disease, true to name, and first class in every way.

Examine the nursery stock carefully when you receive it. If you are not pleased with it in every way, return it promptly at our expense and we will replace it at once, or refund your money in full, whichever you prefer.

After you have planted it, if it fails to grow, owing to weather conditions or other factors over which we have no control, we will adjust for those losses once by issuing a credit for one half (50%) of the original purchase price providing your loss is reported to us not later than August 1, 1964.

(See below)

Imported Direct From Holland

For a little extra novelty this fall our bulb grower, Biemond Bros. of Sassenheim, Holland, sent us a shipment of the cutest, little, hand-made, Dutch wooden shoes you ever saw.

They're 2" long, hand-carved and a real, genuine souvenir of Holland—just the thing for showing children about Holland.

He didn't send many, so we decided to share them with our customers on a first-come, first-served basis at our cost. If you order from Gurney's this fall, you can buy one shoe with each \$1.00 of your order—limit two shoes to a customer. (That way they go around better.) Just ask for B-6299F.

The 9c per shoe is just our cost (duty paid), (We're not trying to make money.)

"George Gurney's Corner"

(My own corner for 'Just Visiting')

Don't worry. I'm not going to sell you anything in this corner. This is just saved for a chat.

First I want to say, I think we've got about the best customers of anyone in the world. You know what I mean when I say they're the "salt of the earth." How do I know? From your letters, of course. They're friendly, chatty, full of gardening tips and compliments on Gurney stock and even the complaints are polite and considerate. Yes, we get some of those, too, but we are glad, for if we've made a mistake, we want to make it right. That's our way of doing business.

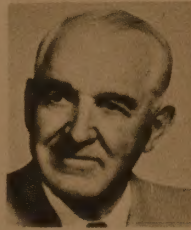

We were busy this spring. Would you believe it—30,000 MORE folks ordered from Gurney's this spring than ever before. Think it was mainly for two reasons—first, they want the harder stock they get from Gurney's, and more important, you Gurney customers have been passing your catalogs around. That's a favor we appreciate (and your neighbor, too) and, if you ever need an extra catalog, just send a postcard. It will go right out.

Fall planting is about here, now. And it's AN IDEAL TIME TO PLANT. Not only does your stock get a real head-start on spring planted stuff, but you generally (and we, too) have more time to get things in. By all means, do some fall planting this year. Tulips, hyacinths, daffodils, crocus, and other flowers we enjoy so in the spring have to be planted in the fall. But, don't forget shrubs, roses, fruit trees, shade trees all can gain a head-start if set now.

We've got a lot of new treats for you this fall. Don't miss trying the Hybrid Darwins on the cover. You'll love them. And the fringed tulips I think are the most delicate things since valentines. But look through the book for yourself.

Send your order now. We will ship at the proper planting time when the plants are dormant and time is right. And, of course, every plant you get from Gurney's will be fresh, top-quality, extra-hardy, state inspected—absolutely the finest you can buy in every way. We're proud of Gurney's stock. Know it will do well for you. Hope to see your order soon.

P.S. Oh yes, every order shipped from Gurney's has a surprise free gift in it for you. It's our way of saying THANK-YOU.

Geo. W. Gurney

Another Satisfied Gurney Customer

I was surprised to receive an answer to my letter so fast and even more surprised to find a refund check enclosed. Thank you so much. No wonder you're in business so many years. You can bet I'll keep buying from you after this experience.

Many thanks again for your wonderful way of doing business, Mrs. J. Gubanich, Cleveland, Ohio.

Georgette Branching

Tulips. If you want

something different and UNUSUAL, try these—a whole bouquet on one stem! Not one or two but often as many as 3 to 5 tulips come on a single branching stem. These pictures don't begin to show their full size—they are several times larger.

Georgette is new, bringing the color to branching tulips. A rich golden-yellow combined with bright cerise edges.

A White And Red B-6605F—This new variety will add welcome beauty next spring. Outstanding with its WHITE petals contrasting to the fiery orange-scarlet cup. Very showy. 3 for 59c; 6 for 98c; 12 for 1.89, postpaid.

SILVER STAR

It's So Fragrant B-6626F—Has broad, creamy white petals which form a perfect star. A wide mouthed trumpet of primrose yellow. One of the most fragrant of all. 3 for 59c; 6 for 98c; 12 for 1.89, postpaid.

KING ALFRED

Most Popular Of All B-6610F—This one has long been a favorite and rightly so. Makes a big golden yellow flower often 3 to 4 in. across with a trumpet 2 in. long. Fine for forcing. 3 for 69c; 6 for 1.19; 12 for 1.98, Postpaid.

DOUBLE YELLOW

A Lovely New Double B-6608F—We think this is the showiest of all the double daffodils. Is a beautiful soft yellow and far better than the old Primrose Phoenix. Fine for forcing. 3 for 59c; 6 for 98c; 12 for 1.89, postpaid.

BULB PLANTING IS EASY

Use Gurney's Bulb SETTER
Handiest Planter Ever!

5047F—For bulbs or plants. Makes a uniform, flat bottomed hole. Just push the tool into the soil. Twist slightly as you lift it. The soil comes with it and you have a clean 2 inch hole. Beats a trowel, and you will find it one of the handiest planting tools you ever used. 1.10, postpaid.

"King Size" SWEEP RAKE

Does More—Easier

5038F—Made of lightweight aluminum. Weighs no more than a small rake but is 44 inches wide and will cover four times the ground. Gold anodized handle and branches. Rubber grip. Steel tines. Only 10.25, postpaid.

GREEN FINGERS Fertilizer Sticks

The Easy Way to Fertilize

5035F—Sticks are impregnated with fertilizer. Simply push a stick into the soil. It absolutely will not cause any burning. No odor or mixing necessary and it is ideal for use either indoors or outdoors. Try it for real results. Package of 35 sticks, 65c; 2 pkgs. 1.10, postpaid.

FALL PLANT Fruits and Be Ahead!

Gain 6 Months!
About Fall Planting

You get a big head start when you fall plant. Stock gets well established and grows way ahead of spring planted stock.

Be sure to leave a mound of dirt around the base of the plants or trees as this helps prevent damage from possible soil heaving. If you live where it gets extremely cold we advise you "heel in" your fruits. Bury tops and roots to a depth of 8 inches in moist dirt. They will keep perfect until next spring.

Fruit trees will be shipped when they have "ripened up" in mid-Oct. and Nov. which is the proper time to fall plant.

Use ZIP

To Protect Vegetables and Plants Against Rabbits and Deer

5044F—Keeps rabbits, deer, and rodents from eating your trees, shrubs and garden. Can also be used on new green growth such as tulips, lettuce, beans and other early green plants. It has a bitter taste and rabbits leave it alone. Treating seed corn will discourage crows and pheasants from pulling germinating seedlings. Not harmful to pets or wild life.

6 oz. Aerosol can 1.25; pints 2.50; quarts 3.50; gallons 11.40; all ppd.

4 BUSH CHERRIES

For \$1.98 Only

No. A-2093XF
(All 2 to 3 Ft.)
(All Genuine Hansen's Improved)

These Hardy, Bush-Type Black Cherries Grow Anywhere

Now, anyone can grow huge clusters of nearly black cherries. Gurney's bush cherries are hardy, grow in any soil, laugh at drought and still bear a crop. Best of all, with bush cherries you get BOTH fruit and beauty. First a bush loaded with bloom and then a bush loaded with fruit. Grow only 3 to 5 ft. in height, so take little space.

Start bearing fruit the second year after planting and live for years. If you can raise apples you can raise the famous Hansen Bush Cherry.

FALL PLANT TREES

for early start

About TREES

Fall planted trees get a real head start over spring planted ones. They gain from snow, early spring rains and 6 months to settle roots.

Gurney's have been headquarters for tree planters for over 90 years. Fall plant all shade trees in the regular manner but mound dirt up around the base of the tree about 8 inches high. We pre-prune the trees before shipment so they are all ready to plant on arrival.

When We Ship: All shade trees will be sent from mid-October into November. This is when they are fully ripened and is the proper time for fall planting in all areas.

LOMBARDY POPLAR

The Stately Upright

A4256—This poplar is used so much for avenue, accent or background planting. Lombardies form tall stately columns of dark, shiny-green leaves. Very fast growers. Plant 5 ft. apart for tight screen.

Gurney's EVERGREENS

HARDY! BEAUTIFUL!

About EVERGREENS

Fall is a perfect time to plant evergreens. Trees get well established long ahead of spring planted ones. Also, we offer only the best, absolutely-hardy varieties.

R. W. means "Root Wrapped." All our trees are freshly dug and each tree individually wrapped in wet moss. All are sent to you postpaid which means another saving to you. Be sure and water thoroughly after planting.

LARGE EVERGREENS FOR LAWNS

You can't beat the Spruce where you want a specimen tree for the lawn. (These are not for foundation-planting so give them plenty of room.)

BLACK HILLS SPRUCE

Has Perfect Compact Form

IN-6F—The Indians call the mountains of South Dakota "Paha Sapa," or Black Hills! It is this beautiful spruce that imprisons the sunlight and gives the hills a black shadow. Its new growth is silvery, extremely hardy.

18-24 in. R.W.	3.98	6.98	

UPRIGHT JUNIPERS

Nothing else can take the place or serve the purpose of these hardy, sheared, upright junipers. Ideal on either side of the front entrance or the corners of the house for year around green accent.

IN-27F—AMES JUNIPER. This lovely new upright is somewhat dwarf in habit and has a lovely blue-green color. Holds its thick foliage clear to the center of the tree. Requires but little shearing. 18 to 24 in. R.W. 5.49 each; 2 for 9.98, postpaid.

IN-11F—WELCHI JUNIPER. Can be kept sheared to narrow cones. Very attractive

when planted one on each side of your house entrance. Perfectly hardy and resistant to drought. 2 to 3 ft. R.W. 6.49 each; 2 for 11.98, postpaid.

IN-10F—DUNDEE JUNIPER. Beautiful and shapely. Has feathery, gray-green foliage in summer, that turns to a delightful plum tint in fall and winter. 2 to 3 ft. R.W. 6.49 each; 2 for 11.98, postpaid.

IN-13F—MOFFETTI JUNIPER. A beautiful fast-growing, grafted, pyramidal juniper. The foliage is a bright, silver-green and the tips of the branches are more silver. A very compact tree. 2 to 3 ft. R.W. 6.49 each; 2 for 11.98, postpaid.

LOW-GROWING JUNIPER

FOR FOUNDATION OR LAWN PLANTINGS

MANEY JUNIPER

PFITZER JUNIPER

SAVINS JUNIPER

Beautiful for Foundation or Lawn Plantings

We are offering three of the finest shrub-type, low-growing junipers on the market. These evergreens will dress up your home 365 days out of the year not just in the summer. All are hardy and priced to save you money.

IN-18F—MANEY JUNIPER. A beautiful, bushy, semi-erect type with a distinctive blue color. Grows to about 3 feet and is very compact. Perfectly hardy and easy to grow. 15 to 18 in. R.W. 3.98 each; 2 for 7.49, postpaid.

IN-44F—PFITZER JUNIPER. Has arching, spreading branches, feathery gray-green foliage. Hardy everywhere. 6 to 8 ft. across at maturity. Can be kept to 4 ft. across by shearing. 15 to 18 in. R.W. 4.49 each; 2 for 8.49, postpaid.

IN-12F—SAVINS JUNIPER. This beautiful, fan-shaped dark green evergreen is exceptionally hardy. One of the best for mass plantings in beds and is hard to beat along the foundation. More erect than Pfitzer. 15 to 18 in. R.W. 4.49 each; 2 for 8.49, ppd.

Gurney's ENTRANCE EVERGREEN offer

A Complete Doorway Planting For You

IN-53XF—This ever-popular offer provides a beautiful setting for your front entrance and gives year 'round evergreen beauty. You can use these anywhere evergreens are needed. You get 2 uprights and 2 low growers in this bargain. All root wrapped trees. We send all these:

2 WELCHI UPRIGHT JUNIPER. Beautiful 2-3 ft. sheared trees.

2 SAVINS JUNIPER. Both 12-15 in. low growers.

GORGEOUS FLOWERING SHRUBS

About SHRUBS

At a very small cost, you can plant Gurney's shrubs which actually can add more value to your home than they cost! Nothing is quite as unsightly as a barren foundation. Gurney's shrubs will take care of that problem quickly and inexpensively, and add beauty you will enjoy year after year.

HOW TO PLANT SHRUBS

A good "rule of thumb" is to plant low shrubs 2½ ft. apart; medium growers 3 to 3½ ft. apart, and tall ones 4 ft. apart. After planting, be sure to prune all shrubs back to about one-third their original height. This equalizes root loss and gives them the best start. Put an 8 inch mound of moist dirt around the base of fall planted shrubs to prevent ground heaving. Remove mound in the spring.

HYDRANGEA P. G.

Massive 10" Flowers

A3848—Hardy shrub producing panicles of white flowers, as large as 10 inches across, changing to shades of pink in the fall. Excellent for foundation or shade plantings. Grows 3 to 5 ft. tall. 18 to 24 in. 1.39 each; 3 for 3.89; 5 for 5.98, postpaid.

BRIDAL WREATH

Everybody's Favorite

A3915—Spirea Van Houttei. George Gurney says: "This is the best hardiest shrub that grows." Its pure white flowers are borne on long graceful branches. Height 4 to 6 feet.

GURNEY'S HARDY HEDGE PLANTS

About HEDGE PLANTS

About HEDGES. Hedges give more beauty than fencing and cost you 1/10 the price. Easily started by anyone—set about 12" apart in row and water well! May be sheared to any height or can be allowed to grow to their mature height. Give you privacy, accent or screen cheaply, easily and beautifully.

A FENCE FOR LESS THAN 4½c A FOOT FOR PRIVACY—BEAUTY AND ECONOMY

Fall plant same as in the spring, but cut back to ½ original height and mound up with moist soil around the base of each plant to a height of 6 or 8 inches. Uncover carefully next spring.

No point or repairs needed in this kind of fence and you'll have real privacy and beauty, too.

Hardy CHINESE ELM

Fastest Grower of All

A3330—If you want a beautiful inexpensive hedge in a hurry, plant Chinese Elm. Can be kept trimmed to any height. Makes one of the tightest hedges possible. Very hardy and drought-resistant. Set 12 inches apart.
